

Introduction to Databases (X-409.1)
Assignment 2 (Due by Class Meeting 4)

Using the Music Inventory database schema, code and execute queries for the following:

1. List the copyright year and title for each compact disc (CD), in descending order by copyright year.
2. List the CD ID and title for music copyrighted in 2014 that also have an in-stock inventory over 20.
3. List each copyright year along with the number of titles and the total quantity in-stock for the compact discs copyrighted that year.
4. List the CD ID and title of CDs that have an in-stock quantity that is higher than the average in-stock quantity for all CDs.
5. List the CD ID and title of all CDs where Stevie Wonder is an artist.

All the files you need for this assignment are available as downloads when you access the assignment.

Please submit the SQL or Microsoft Access query along with the results returned when you ran the query.
